

WASTE MANAGEMENT PROTOCOL

Students and staff	Cleaning Managers	USP Community Instructions
Use dedicated waste containers according to their classification	Use a waste collection cart, which has been previously disinfected	Dispose of waste in designated containers
	Start the route following the in and out marks	
	Starts collecting waste on the second floor	COVID-19 residues and wastes (masks, face masks, disinfectant towels, etc.) must be deposited in the corresponding containers for this purpose which are placed at the school's strategic sites
	The waste collection continues on the ground floor, starting with the Pre-school area	
	Vacate the recipients by tying the bags with double knots. Double plastic bag for COVID-19 wastebaskets (masks, disposable, coats only)	
	Place the collection bags on the collection cart	Avoid agglomerations and keep physical distancing when disposing of waste
	Disinfect trash containers before placing the new bag	
	Replace bags	
	Place waste to proper containers	
	Disinfect the cart and leave it ready for the next day
